

COMPANY ORGANIZED

Last Night for Purpose of Saving the Glass Industry.

A VERY SATISFACTORY MEETING

That Was Largely Attended Marked the Affair Last Night at the Chamber of Commerce—A Communication of Interest from the United States Glass Company—Discussion as to the Proper Course—A Company Will be Incorporated at Once.

The meeting of persons interested in the retention to Wheeling of the glass industry, called by the officers of the chamber of commerce for last evening, can be said to be satisfactory in all respects. The representative business men responded when the papers of incorporation were passed around, and the interest in the scheme to buy the local United States glass company's factories or build new ones seemed to be deep. The attendance at the meeting was remarkably large, every chair in the room being occupied long before 8 o'clock, and during the deliberations of the meeting a large number of interested gentlemen remained standing throughout.

At 7:50 o'clock the meeting was called to order, Mr. Hart suggesting that Mr. Frank Gruse take the chair.

Mr. Hart addressing the meeting said that on November 16 the committee had received an answer to a letter to the United States Glass Company. The letter stated that Mr. Bagley had been delayed, and that the company wished to consult its larger stockholders. Yesterday, however, the committee had received a communication from the United States company making a definite proposition to the committee. The proposition of the company was as follows:

The United States Company cannot deliver the two factories should they sell them until April first, as it would take them until that time to dispose of the manufactured product now on hand. The letter says that Factory "O" cost them \$274,000, including \$40,000 for good will, leaving \$234,000. The remainder is included the sum of \$11,884 for molds, also \$3,700 for etchings, etc., making a total deduction of \$15,584, and leaving a net balance of \$188,416. Factory "H" cost \$178,300, including \$18,000 for good will, leaving \$160,300. Molds cost \$28,177, leaving \$132,123 for Factory "H." This leaves \$325,539 for the two factories. The letter then goes on to state that as a special inducement the company will deduct twenty-five per cent amounting to \$81,385, leaving \$244,154, which is the amount of money the company will take for the two factories. The terms proposed are one-fourth down, and one-fourth in one, two and three years, the notes bearing interest at six per cent.

Speaking of the communication Mr. Hart said 25 per cent of Factory "O" would leave \$142,000, without the molds; with the molds \$184,000; Factory "H," without the molds \$103,000, with the molds \$131,000, making a total of \$315,000. The company estimated the stock at \$500,000, thought to be approximately correct. That would be taking everything as it stands \$305,000. Regarding possession on April 1, Mr. Hart said that possibly there would be no reason not to get immediate possession if molds and stock were purchased. He suggested that two gentlemen who were present, as experts, make explanations of a practical nature.

One said it was pretty hard for him to come to a conclusion in so short a time. He said the molds at the General are not worth what is asked, \$40,000. No new ones had been made since the Central went into the United States Company. A factory built new could be built for less than what is asked. The plant is also, he said, in not nearly so good a condition as it formerly was. Both plants make money under the administration of the United States Glass Company. He did not think it would be advisable to wait until next April; he would not take stock in that event. The only proposition to be accepted he thought was the one to buy the whole plant with molds and stocks if that could be done on an acceptable basis.

Another glass man said that the United States Glass Company took away some of the most valuable machinery from Factory "H," which should be taken from the price asked by the company. He said the molds are worth possibly half the \$28,000 asked by the United States people. One thing against the factory is its location, which necessitates a great deal of hauling. He said the tearing down of the ten-pot furnace was a good thing. When asked if \$120,000 would be a fair price for the Factory "H," he said that would be an advantageous price if the works could be procured and at once started, seeing that the desire is immediate employment.

After much discussion as to the best means to the end, it was decided to apply for a charter and get to work without further delay, leaving better incorporation to determine whether the old factories should be bought or new ones built. The following persons subscribed for stock:

George Hook, Charles Hurdett Hart, M. Senecor, F. Hapoy, W. H. Frank, Henry Hurdett, C. A. Shaffer, Robert Pekari, News Publishing Co., Frank Gruse, Peter Ho, George Kress, Charles Heimlicher, F. O. Soderlund, C. Hess & Sons, F. Schwertfeger, F. H. Lange, William Schwertfeger, C. M. Snook & Co., H. E. Behrens, J. T. Young, John C. Chior, Robert J. Delz, John Corcoran, Alex Morrison, F. B. Dobbin, F. O. Soderlund, George C. Katterbach.

A Good Show.

"Our Country Cousin" was witnessed last night by one of the best pleased audiences of the season. It is a good play, and the company is far above the average. Frank Jones is a generous, unsophisticated country cousin, elicited hearty applause from the audience, and the support came in for a good share of it. It is one of the best companies on the road.—*Clarksville, Tenn., Chronicle.*

"Our Country Cousin" will be at the Grand Thursday, Friday and Saturday.

The Queen of Comedies, "Jane."

The mere announcement that "Jane" is to be seen here at the Opera house next Friday night has created a commotion in society, and fleshy patrons are trying to remember the funny situations in the great laughing success, in order that they may not be caught napping and run the risk of being injured by immoderate laughter.

"Enemies for Life."

The "Enemies for Life" company will open a two nights' engagement at the Grand to-night. The cast is a good one, and the scenic and mechanical effects are very artistic, particularly the picturesque "Paradise canyon," which words fail to describe. Reserved seats are on sale at the box office.

REV. DR. BURTSELL

Well Pleased With His Reception at the Vatican—The Pope's Support of Satelli.

New York, Nov. 20.—An American now in Rome, who is well informed on Roman Catholic Church matters, and who had an interview with Rev. Dr. Burtzell in the sacred city, writes that the New York priest has been most respectfully and cordially welcomed in the highest ecclesiastical circle there; that he had a conference with Cardinal Ledochowski, ex-prefect of the propaganda, which the doctor said was perfectly satisfactory. The correspondent continues that it is generally recognized in Rome and especially in Vatican circles that Dr. Burtzell's efforts having succeeded in the complete reconciliation of Dr. McGlynn, he is very welcome to all those who sympathize with Mgr. Satelli's mission to the church in the United States and that he is greatly pleased at the way in which the matters with which he is connected are progressing in Rome.

The letter says that Leo continues to support effectively Mgr. Satelli in the development of his plans and is determined to overcome all obstacles to his designs for the progress and welfare of his American flock.

Dr. Burtzell could not say how much longer he would remain abroad. Circumstances might prolong or hasten his departure.

FOUGHT OVER A GIRL

A Desperate Duel With Swords Near Napoleon, Ohio.

NAPOLEON, O., Nov. 20.—A desperate duel took place near this place on Saturday between Charles Davis and Leonard Forsythe, aged 22 and 24 years respectively. Swords were used, and later, as they were broken, the men used their jack knives. The young men were rivals for the hand of Miss Margaret Farrell, daughter of wealthy Squire Farrell. Both were almost literally cut to pieces and were unconscious when found. Forsythe, in addition to a number of hacks and cuts was run through the lower part of the left lung. While there is some hope for his rival's recovery, the doctors express little hope for Forsythe.

THE DROP OF A HAT

Even Frightens the Terrified Citizens of Barcelona, Spain.

BARCELONA, Nov. 20.—The police continue their efforts to capture anarchists. Arrests are continually taking place. A Frenchman and an Italian have been arrested with arms and revolutionary documents in their possession. They have been placed aboard the warships, as these are considered to be safer than the prisons. The entire audience at the Eldorado theatre yesterday was thrown into a semi-panic when one of the spectators in the gallery accidentally dropped his hat into the stalls.

INTERNATIONAL OIL TRUST.

A Russian Scheme to Combine With the American Exporters.

LONDON, Nov. 20.—The *Pall Mall Gazette* this afternoon says that negotiations are proceeding, backed by the Russian government, with a view of ending the competition between Russian and American petroleum and forming a great international trust. The article concludes with the remark that "it remains to be seen whether American exporters, who have the largest share of the trade, will agree with the views of the Russians."

Standard Hasn't Heard of It.

New York, Nov. 20.—The Standard Oil Company officials here disclaim any knowledge of the existence of negotiations between their company and the Russian petroleum magnates looking to the formation of a great international oil trust; and thus prevent competition and cutting of prices on that product.

Ex-Congressman Gibson's Accident.

Special Dispatch to the Intelligence.

HUNTINGTON, W. Va., Nov. 20.—A report got current this afternoon late that ex-Congressman Gibson had dropped dead, and it created considerable excitement in town. It turned out that Mr. Gibson had had a serious fall, and although in a bad condition at first, he is reported greatly improved to-night.
